Author Index for Volume 16

Baker-Eveleth, Lori
An Emerging On-Line “Third Place” For Information Systems (IS) Students: Some Preliminary Observations, 16(4), pp. 459

Bock, Douglas B.
Using the Data Modeling Worksheet to Improve Novice Data Modeler Performance, 16(3), pp. 341-350

Bodnar, George H.
An Active X SQL Resource, 16(4), pp.385-386

Bodoff, David

Brown, Susan A.
It’s All Fun and Games…Until Students Learn, 16(1), pp. 9-14

Cavaiani, Thomas P.
Using Selected Options of the Ipconfig Command to Teach Network Troubleshooting Techniques, 16(3), pp. 251-254

Challa, Chandrashekar D.
The Accreditation Process for IS Programs in Business Schools, 16(2), pp. 207-216

Chan, Susy S.
A Competency Based MSIS Curriculum, 16(3), pp. 301-310

Chinn, Susan J.
Contemporary Usage of CASE Tools in U. S. Colleges and Universities, 16(4), 423-430

Choi, Myeonggil
A Curriculum Design for E-Commerce Security, 16(1), pp. 55-64

Clariana, Roy B.
Test Mode Familiarity and Performance- Gender and Race Comparisons of Test Scores among Computer-Literate Students in Advanced Information Systems Courses, 16(2), pp. 177-182

Claxton, Gwyn
Building Student Skills and Capabilities in Information Technology and eBusiness: A Moving Target, 16(1), pp. 27-41

Clifton, Joe
Hands-On Testing in Visual Basic Courses, 16(2), pp. 133-136

Edmondson, Vickie Cox
Analyses of Information Systems Students’ Applications of Two Holistic Problem Solving Methodologies, 16(4), pp.391-402

Eveleth, Daniel M.
An Emerging On-Line “Third Place” For Information Systems (IS) Students: Some Preliminary Observations, 16(4), pp. 459

Essex, Patricia A.
E-Hermes: An XML Tool for the Classroom, 16(3), pp. 351-368

Forster, Paul
Foster, Jonathan
Developing Expertise in E-Commerce: A Content Analysis of Students’ Knowledge of Online Auctions, 16(1), pp. 85-91

Gendron, Michael
Network Analysis and Design for Tickets Sales, Inc., 16(3), pp. 259-263

Goode, Sigi
Peer Review to Support Student Assessment in Teams, 16(4), pp. 379-384

Green, Gina C.
Greta's Gym: A Teaching Case for Term-Long Database Projects, 16(4), pp. 387-390

Grenci, Richard T.
Framing Electronic Commerce within an Introductory Information Systems Course, 16(1), pp. 43-54

Gričar, Jože
Active Learning Model for Teaching B2B e-Marketplaces, 16(1), pp. 103-108

Gunasekaran, Angappa (Guna)
The Maturing of E-Commerce Education in Our Curricula, 16(1), pp. 5-8

Guthrie, Tracy C.
Personality and Programming, 16(3), pp. 293-299

Han, Younggool
A Curriculum Design for E-Commerce Security, 16(1), pp. 55-64

Hardaway, Donald E.
Use of a Technology-Mediated Learning Instructional Approach for Teaching an Introduction to Information Technology Course, 16(2), pp. 137-145

Harris, Albert L.
The Maturing of E-Commerce Education in Our Curricula, 16(1), pp. 5-8

Hignite, Mike
Multicultural Effectiveness Assessment of Students in IS Courses, 16(4), pp.415-422

Hoell, Robert C.
Human Resource Information System Courses: An Examination of Instructional Methods, 16(3), pp. 321-328

Jarmoszko, A. T.
Network Analysis and Design for Tickets Sales, Inc. 16(3), pp. 259-263

Johnson, Jeanne D.
It’s All Fun and Games…Until Students Learn, 16(1), pp. 9-14

Jones, K. Russell
Comparing Web-Based Content Delivery and Instructor-Led Learning in a Telecommunications Course, 16(3), pp. 265-271

Jones, William J.
Human Resource Information System Courses: An Examination of Instructional Methods, 16(3), pp. 321-328

Kasper, George M.
The Accreditation Process for IS Programs in Business Schools, 16(2), pp. 207-216

Kim, Hyunwoo
A Curriculum Design for E-Commerce Security, 16(1), pp. 55-64

Kim, Sehun
A Curriculum Design for E-Commerce Security, 16(1), pp. 55-64
Kleist, Virginia Franke
Demonstration of Parallel Processing Computing: A Scalable Linux Personal Computer Cluster Approach, 16(2), pp. 231-240

Klobas, Jane E.

Kyper, Eric
Contemporary Usage of CASE Tools in U. S. Colleges and Universities, 16(4), 423-430

Le Heron, Judy
Student Understandings of Information Systems Design, Learning and Teaching: A Phenomenography Approach, 16(2), pp. 183-195

Lenart, Gregor
Active Learning Model for Teaching B2B e-Marketplaces, 16(1), pp. 103-108

Leong, Leslie
Improving Students’ Interest in Learning: Some Positive Techniques, 16(2), pp. 129-132

Liegle, Jens
An Exploratory Assessment of the Pedagogical Effectiveness of a Systems Development Environment, 16(2), pp. 157-166

Lin, Angela
Developing Expertise in E-Commerce: A Content Analysis of Students’ Knowledge of Online Auctions, 16(1), pp. 85-91

Liu, Li
E-Hermes: An XML Tool for the Classroom, 16(3), pp. 351-368

Lloyd, Scott J.
Contemporary Usage of CASE Tools in U. S. Colleges and Universities, 16(4), 423-430

Lo, C. N.
Collaborative Project across Three Hong Kong Universities: A Case Study in E-Commerce Education, 16(1), pp. 109-116

Lok, Chun Kit
Collaborative Project across Three Hong Kong Universities: A Case Study in E-Commerce Education, 16(1), pp. 109-116

Lu, Min
Peer-and-Self Assessment to Reveal the Ranking of Each Individual’s Contribution to a Group Project, 16(2), pp. 197-205

Margavio, Geanie W.
Multicultural Effectiveness Assessment of Students in IS Courses, 16(4), pp.415-422

Margavio, Tom
Multicultural Effectiveness Assessment of Students in IS Courses, 16(4), pp.415-422

Massey, Anne P.
It’s All Fun and Games…Until Students Learn, 16(1), pp. 9-14

Maurizio, Amelia A.
SAP-related Education – Status Quo and Experiences, 16(4), 431-448

McAvoy, John
Agile Methodology Adoption Decisions: An Innovative Approach to Teaching and Learning, 16(4), pp. 403-414

McBride, Neil K.
A Student-Driven Approach to Teaching E-Commerce, 16(1), pp. 75-83
McConahey, Brian
Demonstration of Parallel Processing Computing: A Scalable Linux Personal Computer Cluster Approach, 16(2), pp. 231-240

Mehta, Mayur R.
Merging an e-Business Solution Framework with CIS Curriculum, 16(1), pp. 65-74

Meso, Peter
An Exploratory Assessment of the Pedagogical Effectiveness of a Systems Development Environment, 16(2), pp. 157-166

Moeeni, Farhad
Comparing Web-Based Content Delivery and Instructor-Led Learning in a Telecommunications Course, 16(3), pp. 265-271

Morgan, George W.
Merging an e-Business Solution Framework with CIS Curriculum, 16(1), pp. 65-74

Moses, Duane
Multicultural Effectiveness Assessment of Students in IS Courses, 16(4), pp.415-422

Munchus, George
Analyses of Information Systems Students’ Applications of Two Holistic Problem Solving Methodologies, 16(4), pp.391-402

Musa, Philip F.
Analyses of Information Systems Students’ Applications of Two Holistic Problem Solving Methodologies, 16(4), pp.391-402

Nakayama, Makoto
A Competency Based MSIS Curriculum, 16(3), pp. 301-310

Ng, Eugenia
Collaborative Project across Three Hong Kong Universities: A Case Study in E-Commerce Education, 16(1), pp. 109-116

Ngai, Eric W. T.
Collaborative Project across Three Hong Kong Universities: A Case Study in E-Commerce Education, 16(1), pp. 109-116
The Maturing of E-Commerce Education in Our Curricula, 16(1), pp. 5-8

Nicolaou, Andreas I.
E-Hermes: An XML Tool for the Classroom, 16(3), pp. 351-368

Nilsen, Hallgeir

Olfman, Lorne
Designing Knowledge Management Systems for Teaching and Learning with Wiki Technology, 16(3), pp. 311-320

Patokorpi, Erkki
A Constructivist Approach to Information Systems Teaching: A Case Study on a Design Course for Advanced-Level University Students, 16(2), pp. 167-176

Peslak, Alan R.
A Twelve-Step, Multiple Course Approach to Teaching Enterprise Resource Planning, 16(2), pp. 147-155

Petrova, Krassie
Building Student Skills and Capabilities in Information Technology and eBusiness: A Moving Target, 16(1), pp. 27-41

484
Pucihar, Andreja
Active Learning Model for Teaching B2B e-Marketplaces, 16(1), pp. 103-108

Purao, Sandeep,

Raghunathan, Madhavarao
E-Hermes: An XML Tool for the Classroom, 16(3), pp. 351-368

Raman, Murali
Designing Knowledge Management Systems for Teaching and Learning with Wiki Technology, 16(3), pp. 311-320

Rawlings, Peter
Practice-Based Learning in Information Systems: The Advantages for Students, 16(4), pp. 449-458

Redmond, Richard
The Accreditation Process for IS Programs in Business Schools, 16(2), pp. 207-216

Rine, Jay
Demonstration of Parallel Processing Computing: A Scalable Linux Personal Computer Cluster Approach, 16(2), pp. 231-240

Rose, Ellen
Student Understandings of Information Systems Design, Learning and Teaching: A Phenomenography Approach, 16(2), pp. 183-195

Rosemann, Michael
SAP-related Education – Status Quo and Experiences, 16(4), 431-448

Ruby, Paula
Comparing Web-Based Content Delivery and Instructor-Led Learning in a Telecommunications Course, 16(3), pp. 265-27

Faculty Attitudes toward COBOL and its Place among Other Programming Languages in the AACSB Business College Curriculum within the United States, 16(2), pp. 217-228

Ryan, Terry
Designing Knowledge Management Systems for Teaching and Learning with Wiki Technology, 16(3), pp. 311-320

Sammon, David
Agile Methodology Adoption Decisions: An Innovative Approach to Teaching and Learning, 16(4), pp. 403-414

Sarker, Suprateek
An Emerging On-Line “Third Place” For Information Systems (IS) Students: Some Preliminary Observations, 16(4), pp. 459

Scamell, Richard W.
Use of a Technology-Mediated Learning Instructional Approach for Teaching an Introduction to Information Technology Course, 16(2), pp. 137-145

Schrage, John F.
Data Validation Matrix for Programming Courses, 16(3), pp. 255-257

Shade, Sherri
Personality and Programming, 16(3), pp. 293-299

Shah, Jaymeen R.
Merging an e-Business Solution Framework with CIS Curriculum, 16(1), pp. 65-74

Simkin, Mark G.
An Experimental Study of the Effectiveness of Collaborative Testing in an Entry-Level Computer Programming Class, 16(3), pp. 273-280
Sofat, Indu  
Student Understandings of Information Systems Design, Learning and Teaching: A Phenomenography Approach, 16(2), pp. 183-195

Stephens, Robert  
Practice-Based Learning in Information Systems: The Advantages for Students, 16(4), pp. 449-458

Sutcliffe, Norma  
A Competency Based MSIS Curriculum, 16(3), pp. 301-310

Tabor, Sharon W.  

Tétard, Franck  
A Constructivist Approach to Information Systems Teaching: A Case Study on a Design Course for Advanced-Level University Students, 16(2), pp. 167-176

The, Seng-Thiam  
Peer Review to Support Student Assessment in Teams, 16(4), pp. 379-384

Tu, Yanbin  
Peer-and-Self Assessment to Reveal the Ranking of Each Individual’s Contribution to a Group Project, 16(2), pp. 197-205

Wallace, Patricia  
Test Mode Familiarity and Performance- Gender and Race Comparisons of Test Scores among Computer-Literate Students in Advanced Information Systems Courses, 16(2), pp. 177-182

Wang, Hai  
A Project Module of E-Commerce Planning, 16(1), pp. 15-17

Wang, Shouhong  
A Project Module of E-Commerce Planning, 16(1), pp. 15-17

White, Paul  
Practice-Based Learning in Information Systems: The Advantages for Students, 16(4), pp. 449-458

Wong, Yun K.  
Collaborative Project across Three Hong Kong Universities: A Case Study in E-Commerce Education, 16(1), pp. 109-116

Woszczyński, Amy B.  
Personality and Programming, 16(3), pp. 293-299

Yager, Susan E.  
Using the Data Modeling Worksheet to Improve Novice Data Modeler Performance, 16(3), pp. 341-350

Yang, Qi  
Hands-On Testing in Visual Basic Courses, 16(2), pp. 133-136
